“ It has been 18 years since I held Christine's hand the day of the accident. We were first there, after getting her car shut off we broke into the car to see if we could help. I never had smelled air bags before that day. After finally get to the driver, I reached to feel her pulse, it was weak but I held Christine's hand a talked to her. I told her help was coming and they would take care of her. I have three daughters so this hit home! I wish that the outcome was different for her for her family for her mom and dad. I did go to the funeral and I never saw so many kids! I wished that the end result was different. I keep Christine in my prayers as well as the family. I hope that some day I get to meet this young lady, someday!
