“ My condolences to all family and friends of Debra Park. I have been out of college for 10 years now and my psychology of happiness class was the last class that I took with Professor Park. She forever shaped the way I saw myself and how to relate to and understand others. Her class is something that I have carried with me in my professional career over the last eight years. She was one of a kind. Her smile was one of a kind. I never connected with a professor the way I connected with her. I am pursuing a dual masters degree and came to find professor Park only to sadly find her passing. I hope that you find peace in knowing that you were close to an angel and that her absence is felt from a far.

“ One of the most impactful teachers I had through high school, college, and graduate school. She’s the reason I went into psychology and she cheered me on from the sidelines for more than 20 years. 💔💔💔💔

“ Truly a "blessing" for education and I got to share many years with Debbie at West Deptford. Our teasing and always good nature fun made our relationship a treasure which will be an everlasting memory. She will forever live in my heart.

*I felt Deb was a kindred spirit. We attended a symposium on teaching Psychology at Beaver College (as it was called back then). I just loved her spirit and dedication to education.
Much love to her family and friends.

Debby was present in many people's lives but for me, she was my friend. A friend since 1972 when a group of great women made the choice to stay connected and care about the joys and heartaches of our lives. It will be beyond difficult not to hear her voice, meet in person or message. I will be forever grateful for her gift of friendship and carry thoughts of her with me always.
