AN

“ I worked with Janice for a short period in the earlier 80's at Newcomb Hospital, as it was called back then. She moved away from Vineland first, and I did as well shortly after, but we continued to keep in touch and updated with letters. I still have one of her letters, her wedding photo and birth announcement of her first daughter. We were both busy wth young families, moving again and unfortunately lost contact. Since it was the time before the internet and social media, we didn't reconnect. I recently learned of her passing. I will remember her being a sweet person with a great smile and a kind nurse, .
