“ My memory of my Uncle is a story we both were told numerous times about how him and I scared the pants off everyone when we couldn't be found because the two of us took off to the store across a major highway at three years old and charged two big bags of candy on my Grandma's account at the local store and had everyone searching high and low when they finally found us we were just walking down the sidewalk hand in hand smiling with all that candy it turns out that the store keeper knew grandma and called her and ratted us out. Being we pretty much grew up together I can't even begin to tell you how much he will be missed by me I just want the family to know how sorry I am for there loss because it's like I lost part of my life too
